

Arcos Series

17th to 21st March 2016

Meet & Beat Pros!

You can join the professionals and amateurs going head to head in a tournament series at Arcos Golf north of Cadiz. The opening tournament is a 2 round pairs event. No partner, no problem, we will team you up. The second is the 54 hole Main Event at Arcos.

Amateurs receive 3/4 hcp throughout. Everyone plays off the same tees and finishes in the same ranking list. Amateurs can win up to €700 per event.

Staying in the club's excellent Villas, Apartments and Hotel, Arcos is a great base with an expansive practice area and cosy bar. These events provide the optimum combination of competition and camaraderie. If its training you want, you may hit an unlimited amount practice balls from the grass tees or try to match the control of the club's tour pro, and your fellow competitor, 2015 German Senior Open Champion, Pedro Linhart in the fine short game area.
